DIVISION OF  
OIL, GAS AND MINING

Dear Mr. Gatto:

We are in receipt of your letter of May 23, requesting "the copy of the permit, plan of operation, and copy of bond for Levin Stone Company". Let me clarify the difference between the 43 CFR 3809 regulations, which govern activities for locatable minerals, and the 43 CFR 3600 regulations which govern activities for common varieties. Upon abandonment of the Spectrum claims, we no longer administered the Spectrum quarry under the 3809 regulations, and began using 43 CFR 3600. There was already a community pit in place, and, in accordance with 43 CFR 3604.1, Levin Stone began purchasing over-the-counter permits. Permittees normally do not file a mine plan or submit a reclamation bond when purchasing such permits, but instead pay a reclamation fee to the government. Initially the fee they paid was \$5.00 per ton of rock, but upon subsequent review, that was decreased to \$3.00 per ton. In all, they paid \$1200 in reclamation fees, copies of the permits are enclosed.

In addition to the over-the-counter sales, Levin Stone signed two contracts for less than \$2000. Such contracts do not require reclamation fees or bonds, but reclamation stipulations are attached to them. Copies of these contracts are enclosed.

Since their output was escalating, Levin Stone submitted an application (enclosed) for a 1,000 ton sale. The decision to approve the sale has been appealed to the Interior Board of Land Appeals, and no further permits or contracts have been issued to

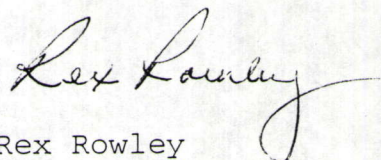

the company since we received the Notice of Appeal. There is still some material at the site that Levin Stone had already purchased and that they will be removing in the near future.

Since the decision to approve the 1,000 ton sale was appealed, no permit for that action has been issued, and the company has submitted no bond. There is no "Plan of Operations" per se, as that is a term normally used when applying the 3809 regulations.

We have also noted that your recent letter has a different address for both you and Cambrillic Natural Stone than has previous correspondence. What is the official address for your corporation?

If you have any questions, please feel free to contact Sheri Wysong at (435)743-3124.

Sincerely,

A handwritten signature in cursive script, reading "Rex Rowley".
